INTRODUCTION

The Nigeria Agribusiness Investment Activity (NAIA) is a USAID activity implemented by CNFA in Nigeria. The goal of the NAIA is to strengthen the enabling environment for agribusiness finance and investment. To achieve this goal, the NAIA focuses on four interrelated components: (i) improving the enabling environment for agricultural sector growth; (ii) broadening access to finance by mitigating the credit risks of agribusinesses; (iii) promoting and facilitating investment opportunities for agribusinesses to expand and scale up operations; and (iv) sustainably enhancing the performance of agribusiness micro, small and medium size enterprises (MSMEs). The NAIA operates in seven states of Benue, Cross River, Delta, Ebonyi, Kaduna, Niger and Kebbi along soybean, maize, aquaculture, rice, and cowpea value chains.

As part of project activities, the NAIA requires the purchase of agribusiness development consultancy services to support NAIA’s agribusiness partners to strengthen their organizational capacities and help meet the loan requirements for any financing opportunities, across its seven states (Benue, Cross River, Delta, Ebonyi, Kaduna, Kebbi, and Niger States).

Offerors are responsible for ensuring that their offers are received by CNFA in accordance with the instructions, terms, and conditions described in this RFP. Failure to adhere with instructions described in this RFP may lead to disqualification of an offer from consideration.

CNFA will consider proposals in response to this RFP from Independent Consultants and Firms.

APPLICATION SUBMISSION

Offer Deadline and Protocol: Offers must be received **not later than 4:00pm, West African Time (WAT), on 17 September 2021**. Offers must be submitted by email to aasabi@ag-invest.org.

USAID Nigeria TB LON Region 1 and 2 Project

The TB LON Project is funded by USAID Nigeria and focuses on locally generated solutions to provide TB prevention, screening, diagnosis, treatment and notification, while addressing stigma and discrimination. The TB LON region 1 and 2 project is to be implemented by KNCV TB foundation Nigeria to expand the provision of and increase access to TB services among formal and informal health providers through the engagement of the private sector, umbrella and local chapters of health and allied professional organizations, faith-based institutions, communities and civil society. The project is targeted at increasing the number of tuberculosis (TB) cases that are detected, treated and notified to 437,895 within the five year grant implementation period 2020 to 2025 and implemented across 14 states in Nigeria; Bauchi, Kaduna, Katsina, Kano, Nasarawa, Plateau, Taraba, Anambra, Akwa Ibom, Benue, Cross River, Delta, Imo and Rivers State. The project's four intermediate results are as follows:

- Improved access to high-quality, person-centered TB, DR-TB, and TB/Human Immunodeficiency Virus (TB/HIV) services;
- Strengthened TB service delivery platforms;
- Reduced TB disease transmission and progression and
- Accelerated TB innovations with improved impact on program implementation

KNCV Nigeria is working with a consortium of partners- two sub recipients- CCCRN and KNCV International and six strategic service package providers- Intraset Global, IPCD, Jana Health Foundation, Diadem Consult, Public Health Concerns Ltd and TB Network. Towards meeting the project set targets, KNCV Nigeria and partners adopted a mixed model of community and facility based, health systems strengthening strategies and digital solutions to find TB cases in a Roll in, Roll on and Roll out staged approach. Roll in was in year 1 which is the planning stage, collaborations and capacity building, Roll on is the saturation stage in Year 2,3 and 4 while Roll out in year 5 is the transitioning Stage.

DGM/HEAD PROCUREMENT

FOR: DG/CEO

DEADLINE: 23RD SEPTEMBER, 2021
INTERNATIONAL ORGANIZATION FOR MIGRATION (IOM)
EXPRESSION OF INTEREST TO WORK IN PARTNERSHIP IN THE
REINTEGRATION OF MIGRANTS

BACKGROUND

Assisted voluntary return and reintegration (AVRR) is a key strategy in ensuring the humane and orderly movement of migrants. It is an indispensable component of a migration management approach which is intended to be mutually beneficial to migrants, governments and other sectors of society affected by migration.

IOM implements the AVRR which has well-tailored reintegration measures supporting the socio-economic reintegration of returnees in their countries of origin. IOM under the different ongoing projects including the regional Joint Initiative for Migrant Protection and Reintegration (financed by the European Union Trust Fund) and other AVRR projects is implementing actions to ensure the sustainable reintegration of returning Nigerian migrants in close collaboration with the Government of Nigeria

These projects provide Community-Based Reintegration (CBR) support which aims at involving returning migrants in income-generating activities with their home communities to promote inclusive local development while also reducing the socioeconomic challenges in the areas and the impact of return migration on the prioritized receiving communities. In this regard, IOM has, at this stage, identified communities in Kano state which are highly affected by irregular migration to create job opportunities in existing private sectors firm and set up community-based projects in line with the community/returnees' interest and ecological setting.

To create employment opportunities and income generating activities for returned migrants and unemployed youths otherwise known as potential migrants in these communities, IOM is seeking private sector partnership with companies who have expertise and are currently running profitable businesses with a potential to absorb potential migrants and returned migrants as employees in any of the following areas

- Plastic recycling and plastic production business
- Manufacturing of household plastic items

OBJECTIVE

The main objective of this engagement is to promote partnership between IOM and the private sector to provide employment opportunities within their cycle of business for unemployed youth/potential migrants and returnees who are exposed to the risk of irregular migration within their communities, and to create avenue for knowledge transfer in the course of engagement with the private sector.

SPECIFIC CONTEXT

The high demand of plastic items in Nigeria and the positive impact of recycling plastic items has prompted the essence of plastic recycling and plastic manufacturing business to boost production for the increasing population and contribute to the overall economic matrix of the state.

According to the data matrix from the Nigeria data portal the unemployment rate in the country is about 32.5% [2021] for a population of approximately 211,394,895 people, with youths making a substantial part of that population. Also available data from the EU-IOM JI over 17,359 migrants have been returned back to Nigeria since 2017 and a large number of them are from Kano State. It is of critical importance therefore to positively engage this youth channeling their energy and potentials to build their skills, create employment, develop entrepreneurship capacity to create livelihood opportunities.

In view of this, IOM is seeking well established private sector companies in the plastic recycling sector that can provide employment within their existing businesses or in setting up a new plastic business in a partnership modality with IOM. The beneficiaries under this scheme will have the opportunity to acquire skill, work experience and technological know-how on plastic recycling and producing of plastic items.

REQUIREMENT

This project has taken an approach of promoting partnership with well-established plastic recycling and production of plastic items which has the required funds, technological expertise, job placement capacity, management, market for the products and technical industry -specific expertise to support with provision of employment. To this end, IOM is seeking private firms with the relevant pedigree, preferably in plastic processing, value chain network who will offer job placement within their business for returnees and potential migrants and is also capable of providing technical expertise to set up plastic recycling and production.

QUALIFICATION AND EXPERIENCE

The criteria for selecting the firm, among others, are:

➤ Must operate in Nigeria with preference given to those who are within/near the following States: Kano State.

➤ Must be registered and certified by the Corporate Affairs Commission and tax certificate;

Must have been in operation for at least two (2) years in similar area of expertise;

➤ Must be a business development service provider;

➤ Evidence of consistent and sustained good financial performance (audit reports for the last 2years);

Management Team composition with a proven track record;

➤ proven understanding of the Nigerian business environment and labor market structure;

➤ Evidence of the existence of a proper governance structure;

Evidence of the availability of adequate resources (human and financial) and capacity to manage plastic or manufacturing business;

➤ Evidence of consistent regulatory compliance;

➤ Proven financial capacity.
